In the Drums window, select the style of sounds from the left column and the individual kit from the right column.

You can also change the sounds in the pattern To change the entire kit, tap button at the bottom of the screen that shows the currently selected kit (such as Trap Door or Hacienda).. Tap Step/On Off to add and remove steps You can add and remove steps while Beat Sequencer is playing back or idle.. You can change the pattern by turning steps on or off Each row corresponds to an individual instrument in the drum kit, which is shown along the left of the grid.. After you've added steps, you can edit each individual step:. The pattern plays back at the tempo you've set for your song, and loops depending on the length of the pattern.

[Signsis S60v3]

To stop and start to the pattern, tap If you want to add the pattern to your song, record the pattern.. If you've created a new song, the Sound browser opens automatically If you want to add Beat Sequencer to an existing song, tap to open the Sound browser.
